RITUAL G3
TRAPPERS

RITUAL G3 TRAPPER TECHNOLOGY

AXYFLEX

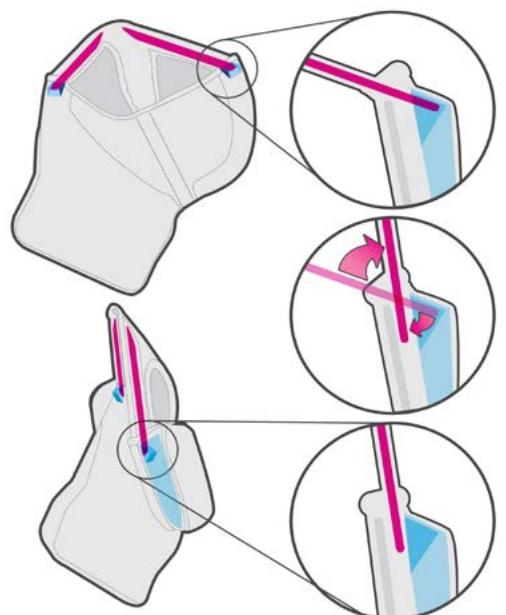

(Featured on Ritual G3 Trapper: PRO, SR, INT)

FUNCTION:

AXY-FLEX tee construction features stiff tee components that insert into rigid tent structures where the tee connects to the fingertips and thumb

BENEFIT:

Snappy open and closure
Strong, sturdy tee that doesn't break down

Tent structure allows tee component to hinge open easily without requiring tee components to break in (break down)
Tent structure prevents tee from hyper-extending and collapsing in on itself

Tee components are unrestricted to hinge freely within the desired range of motion

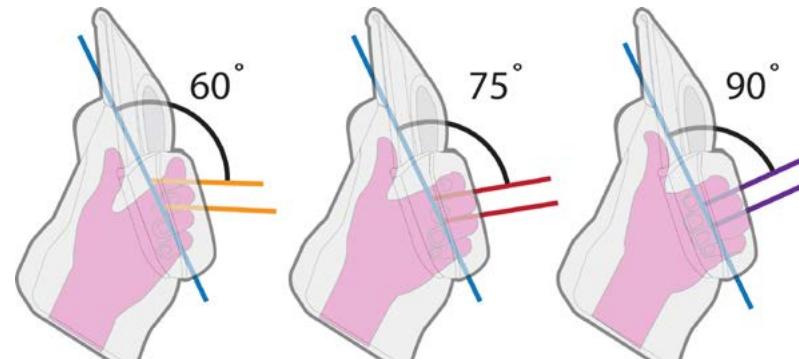

Tee components can flatten without restriction providing a tight trapper closure and snappy game-ready feel

REMOVABLE LINER

(Featured on Ritual G3 Trapper: PRO, SR, INT)

FUNCTION:

Removable liner is easily removable for hand-washing and drying and is replaceable
Available in 3 fingerstall configurations (60°, 75°, 90°) providing three distinctly different 'feel' options
Available with removable foam practice insert

Fingers to thumb style closure most suitable to those who prefer the 'baseball glove' feel

Neutral feeling closure suitable for any preference

Fingers to palm style closure
