COVERT QR EDGE

Covert QR Edge technology is unlike anything seen before in a hockey stick. We created the Edge Taper which maximizes the energy transfer by focusing the energy down into the blade for our fastest release yet.

COVERT QRE STICK TECHNOLOGY

EDGE TAPER

A new angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response, is more stable and plays stronger.

EDGE QUICK RELEASE

The new QRE is easier to load and has a more explosive quick release. Your energy transfers through the shaft, blade and puck making more lights shine red in rinks everywhere.

**TRUE 1
PHANTOM FEEL**

Reengineered True 1 piece construction creates extreme lightweight blade balance and smooth, strong flex archs. True 1 Phantom construction enhances how the stick feels during play giving you more control and response.

MINIMUS CARBON 1200

Ultra-Thin 12K high strength, lightweight flat weave carbon composite design improves the sticks construction technologies. The Edge Taper responds fast and accurately through load and release. The materials lightweight ultra-thin qualities enhance the sticks balance, playability and feel.

COVERT QRE

EDGE QUICK RELEASE | We've improved the performance of a game changing stick series. The new QRE is easier to load and has a more explosive quick release. Your energy transfers through the shaft, blade and puck making more lights shine red in rinks everywhere.

EDGE TAPER | A new angular edge taper drives flex energy through the hosel that magnifies power and quick release. Our unique geometry improves response, is more stable and plays stronger.

MINIMUS CARBON 1200 | Ultra-Thin 12K high strength, lightweight flat weave carbon composite design improves the sticks construction technologies. The Edge Taper responds fast and accurately through load and release. The materials lightweight ultra-thin qualities enhance the sticks balance, playability and feel.

TRUE1 PHANTOM | Reengineered True1 piece construction creates extreme lightweight blade balance and smooth, strong flex archs. True1 Phantom construction enhances how the stick feels during play giving you more control and response.

PRO CORTEX GRIP | A textured surface coupled with a tacky soft grip feel that locks your hands in place for optimum hand control.

EDGE QUICK RELEASE | Nous avons amélioré la performance de cette ligne de bâtons qui fait vraiment la différence. La technologie Quick Release rend le bâton plus facile à charger et plus explosif au moment de relâcher la rondelle. L'énergie est transférée, sans perte, du manche à la lame, puis à la rondelle. Il en résulte un lancer plus puissant et plus précis, et des lumières rouges qui vont s'allumer plus que jamais derrière les buts adverses.

EDGE TAPER | Un nouveau profil angulé transfère l'énergie emmagasinée dans la flexion jusqu'au bout du manche pour un lancer plus rapide et plus puissant. Notre géométrie unique améliore la stabilité, la solidité et la réponse.

MINIMUS CARBON 1200 | L'utilisation de fibres de carbone 12k plates, ultra-minces et ultra-légères permet une construction plus avancée technologiquement. Le design profilé répond plus rapidement et plus précisément durant la phase de charge et de relâchement. Les propriétés de la fibre ultra-mince permettent de produire un bâton mieux balancé, pour une prise en main et un maniement exceptionnels.

TRUE1 PHANTOM | La technologie de construction monocoque a été repensée pour créer un bâton mieux balancé, extrêmement léger, avec un arche de flexion solide et progressif. La construction True1 Phantom améliore la prise en main et le comportement du bâton, pour un meilleur contrôle.

TEXTURE PRO CORTEX GRIP | La surface texturée et le fini adhérent assurent une prise solide pour un contrôle optimal.

ALPHA ONE HELMET

TRUE ONE SHELL | A one piece high density plastic shell that provides a superior stiff, strong and lightweight barrier of advanced protection. The shells distinct geometry is designed to provide best in class impact diffusion coupled with a profile that is aesthetically sleek.

OMNISHOCK+ PROTECTION SYSTEM W/ VICONIC INSERTS | A holistic approach to head protection focused on safety first. All shell and liner compositions are integrated by design. Focused impact zones on the frontal lobe, temples and occipital are enhanced with a lightweight diffusion plate called Viconic. Viconic absorbs multiple impacts both linear and twisting. The diffusion of force through the helmet is not one materials full responsibility. The True One shell and EPP is the core of safety forming a lightweight barrier that provides protection against catastrophic injury. The Impax soft touch foam shield and the Viconic pods are special elements designed for specific small and large impacts. The OmniShock+ system is enhanced hockey helmet design.

ADAPT FIT 360 BY BOA | In a fast moving game like hockey helmet fit is paramount to maximize safety and comfort. The AdaptFit 360 provides fit equalization all around your head with the micro adjustment of a BOA dial. The control and individual fit of the helmet will allow you to wear it safely and comfortably for extended periods.

FLOW COMFORT POLYGIENE LINER AND VENTING | Wearing a helmet should not be irritating. Our removable flow liner pads are treated by Polygiene. They absorb sweat, dry quickly to keep you cool and odor free. Airflow through the shell is optimized by design to keep you from overheating.

COLOR CUSTOMIZATION | In every box use the easy to apply side decals to customize your helmet with a splash of color.

COQUE TRUE ONE | La coque construite d'une seule pièce de plastique haute densité crée une barrière de protection à toute épreuve, à la fois rigide, robuste et légère. La géométrie exclusive est étudiée pour une diffusion maximale des impacts, sans affecter l'esthétique du casque, qui reste élancé et peu volumineux.

SYSTÈME DE PROTECTION OMNISHOCK+ AVEC INSERTIONS VICONIC | Une approche holistique de la protection crânienne dirigée prioritairement vers la sécurité. Un design qui intègre tous les éléments, de la coque au coussinage. Des zones d'impact concentrées sur les zones frontales, temporales et occipitales sont protégées par une plaque de diffusion très légère Viconic, qui absorbe les impacts multiples, qu'ils soient linéaires ou en torsion. La diffusion des forces à l'intérieur du casque n'est pas l'affaire d'une seule composante. La coque True One et la couche EPP forment une première barrière de protection contre les impacts les plus violents, potentiellement catastrophiques. La couche de protection en mousse Impax et les capsules en Viconic offrent une barrière supplémentaire face aux chocs plus spécifiques, forts et légers. Le système OmniShock+ propose une approche intégrée du design d'un casque de hockey.

ADAPT FIT 360 PAR BOA | Dans un sport rapide comme le hockey, un ajustement parfait du casque est essentiel, autant pour la sécurité que le confort. Le système AdaptFit 360 répartit l'appui sur toute la circonférence de la tête avec la précision du micro-ajustement de la roulette BOA. Cette parfaite maîtrise de l'ajustement individuel garantit confort et sécurité pour une période prolongée.

VENTILATION ET DOUBLURE POLYGIENE FLOW COMFORT | Porter un casque ne devrait pas être irritant. Nos coussins amovibles sont traités avec Polygiene. Ils absorbent donc la sueur et séchent rapidement pour vous garder à frais, sans odeur désagréable. Le design permet à l'air de circuler à travers le casque pour vous empêcher de surchauffer.

COULEUR SUR MESURE | Chaque boîte contient un jeu d'autocollants permettant de personnaliser votre casque avec les couleurs de votre choix.

ALPHA ONE PRO HELMET

TRUE ONE PRO SHELL | A one piece high density plastic shell that provides a superior stiff, strong and lightweight barrier of advanced protection. The True One Pro shell has a distinct geometry designed to balance a slim look and provide good impact diffusion.

OMNISHOCK PROTECTION SYSTEM W/ IMPAX FOAM | A holistic approach to head protection. All shell and liner compositions are integrated by design in a low stand off sleek system. Focused impact zones on the frontal lobe, temples and occipital are reinforced with Impax absorb pods that diffuse energy. Impax pods absorbs both linear and twisting impacts. The True One Pro shell and EPP is the core of safety forming a lightweight barrier that provides protection against catastrophic injury. The Impax pods are designed for specific soft and medium hits.

ADAPTIT 270 BY BOA | In a fast moving game like hockey helmet fit is paramount to maximize safety and comfort. The AdaptFit 270 fit system is micro adjusted with a BOA dial pulling the liner to your head. The control and individual fit of the helmet will allow you to wear it safely and comfortably for extended periods.

FLOW COMFORT POLYGIENE LINER AND VENTING | Wearing a helmet should not be irritating. Our removable flow liner pads are treated by Polygiene. They absorb sweat, dry quickly to keep you cool and odor free. Airflow through the shell is optimized by design to keep you from overheating.

COLOR CUSTOMIZATION | In every box use the easy to apply side decals to customize your helmet with a splash of color.

COQUE TRUE ONE | La coque construite d'une seule pièce de plastique haute densité crée une barrière de protection à toute épreuve, à la fois rigide, robuste et légère. La géométrie exclusive est étudiée pour une diffusion maximale des impacts, sans affecter l'esthétique du casque, qui reste élancé et peu volumineux.

OMNISHOCK PROTECTION SYSTEM W/ IMPAXFOAM | Une approche holistique de la protection crânienne. Un design qui intègre tous les éléments, de la coque au coussinage. Des zones d'impact concentrées sur les zones frontales, temporales et occipitales sont protégées avec des capsules de matériel Impax, qui diffuse efficacement l'énergie. Les capsules d'Impax absorbent les impacts linéaires ou en torsion. La coque True One et la couche EPP forment une première barrière de protection contre les impacts les plus violents, potentiellement catastrophiques. Les capsules Impax offrent une barrière supplémentaire face aux chocs plus spécifiques, moyens et légers.

ADAPTIT 270 PAR BOA | Dans un sport rapide comme le hockey, un ajustement parfait du casque est essentiel, autant pour la sécurité que le confort. Le système AdaptFit 270 appuie uniformément la doublure sur la tête grâce au micro-ajustement précis de la roulette BOA. Cette parfaite maîtrise de l'ajustement individuel garantit confort et sécurité pour une période prolongée.

VENTILATION ET DOUBLURE POLYGIENE FLOW COMFORT | Porter un casque ne devrait pas être irritant. Nos coussins amovibles sont traités avec Polygiene. Ils absorbent la sueur et séchent rapidement pour vous garder au frais sans odeur désagréable. Le design permet à l'air de circuler à travers le casque pour vous empêcher de surchauffer.

COULEUR SUR MESURE | Chaque boîte contient un jeu d'autocollants permettant de personnaliser votre casque avec les couleurs de votre choix.

ALPHA QX GLOVES

ALPHA QX GLOVE TECHNOLOGY

HYBRID FLEX CUFF

HYBRID FLEX CUFF

Extends your range of motion improving puck handling while still protecting your wrists from slashes.

HYBRID TAPER FIT

HYBRID TAPER FIT

Allows the 4-Roll glove to contour to the natural shape of your hand, maximizing mobility and improving protection.

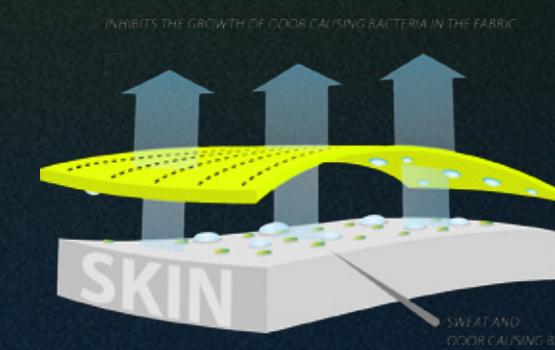

BUTTER SOFT FEEL

Responsive Lycra gussets, AXI-Flex Thumb and our anatomical stretch backhand give Alpha gloves a noticeable snappy, game ready feel right off the shelf.

PHANTOM FOAM

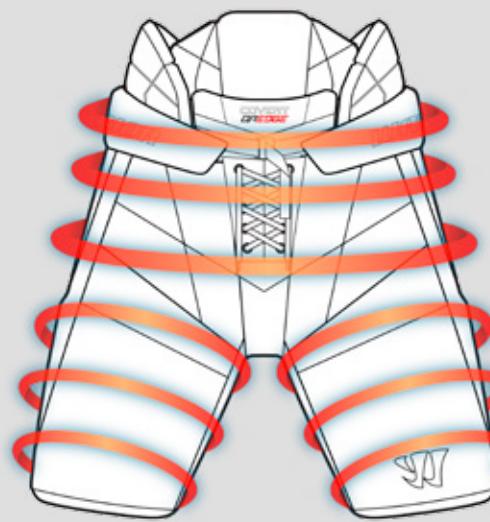

Extremely lightweight blend of first class foam protection combined with shield inserts, absorb big impacts.

WARTECH FNC LINER

The Strike yellow liner is powered by Polygiene so you're always dry, clean and odor free.

COVERT PANT TECHNOLOGY

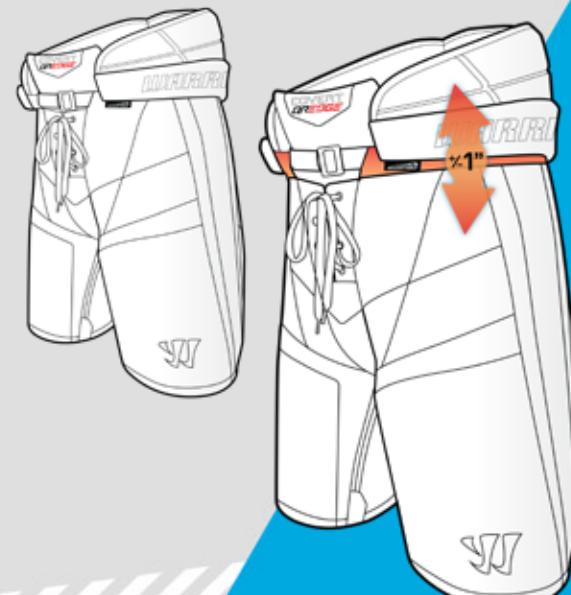

COVERT TAPER FIT

Tailored pro fit to follow natural skating posture.
The minimalist form fitting style allows you to remain quick and agile in game play.

ADJUSTABLE

Fit versatility for the growing player and or the player looking for more finite adjustment. A zippered gusset allows for a 1" leg excitement.

AXYFLEX

The lower pant is separated from the upper molded AxyFlex spine and kidneys with a floating internal belt. This allows the spine and kidney protection to move with you as you skate and pivot in play.

COVERT QRE PANTS / QRE VELCRO PANTS

COVERT TAPER FIT | Tailored pro fit to follow natural skating posture. The minimalist form fitting style allows you to remain quick and agile in game play.

ADJUSTABLE LEG EXTENSION | Fit versatility for the growing player and or the player looking for more finite adjustment. A zippered gusset allows for a 1" leg excitement.

AXYFLEX KIDNEY AND SPINE PROTECTION | The lower pant is separated from the upper molded AxyFlex spine and kidneys with a floating internal belt. This allows the spine and kidney protection to move with you as you skate and pivot in play.

MINIMUS OUTER SHELL | A mix of premium denier nylon weaves focused on lightweight, durability and stretch.

WARTECH FNC LINER | Powered by Polygiene so you are always cool, dry and odor free – the very best pants stay Fresh and Clean.

COVERT TAPER FIT | Coupe professionnelle pour favoriser une position naturelle de patinage. Le style minimaliste permet de rester rapide et agile sur la glace.

EXTENSION DE JAMBES AJUSTABLE | Versatilité d'ajustement pour le joueur qui grandit et celui qui recherche une grande possibilité d'ajustement. Un soufflet zippé permet une extension allant jusqu'à 1".

PROTECTION DE LA COLONNE ET DES REINS AXYFLEX | La partie du bas du pantalon est fixée au protecteur supérieur des reins et de la colonne AxyFlex au moyen d'une ceinture interne flottante, ce qui permet à la protection moulée de rester bien placée face aux reins et à la colonne lors des pivots et du patinage.

COQUE EXTÉRIEURE MINIMUS | Un mélange de nylons de différents deniers axé sur la légèreté, la durabilité et l'élasticité.

DOUBLURE WARTECH FNC | Grâce au traitement Polygiene, vous restez toujours au frais, au sec et sans odeur – les meilleurs pantalons pour rester frais et propre.

LEG PADS

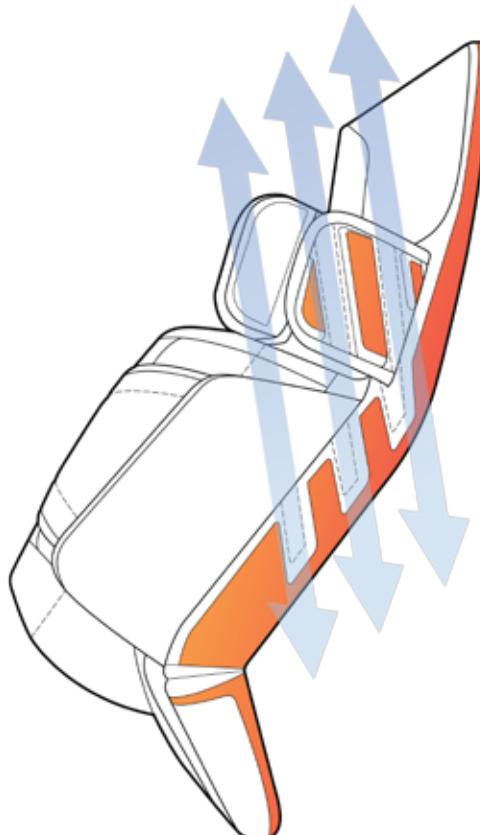

RITUAL G4 LEG PAD TECHNOLOGY

AIRSLIDE

AIRSLIDE landing surface enhances pad sliding, especially on rough/snowy ice

Engineered channels decrease friction by reducing surface area that contacts the ice

Diagonal orientation of channels is set to the optimal trajectory for sliding through snow and rough ice

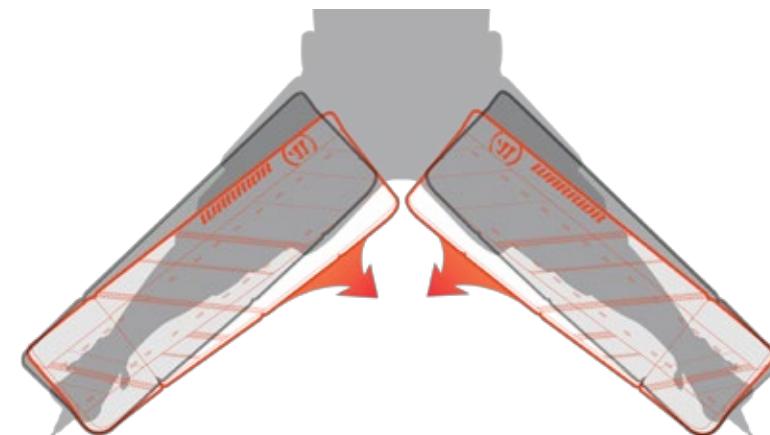

360° ACTIVEDROP

360° ACTIVEDROP Leg Channel enhances five hole coverage

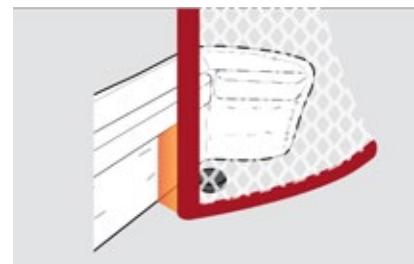

Conventional leg channel keeps the pad centered on leg while the goalie is in an upright stance unless the pad is worn extremely loose

360° ACTIVEDROP leg channel encourages the knee and thigh segments of the leg pad to drop lower covering more five hole while the goalie is in an upright stance and during butterfly slide transition

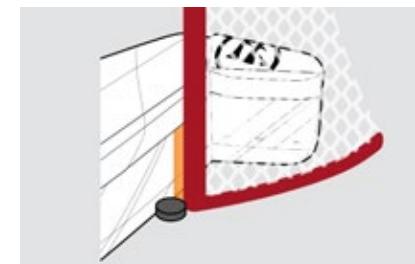

Active drop occurs while still providing a secure feel and fit

RVH OPTIMIZED OUTER ROLL

Conventional Outer Roll shape creates gap between pad face and goal post in Reverse VH position

RVH OPTIMIZED Outer Roll seals against goal post in Reverse VH position without sacrificing necessary puck stopping benefits

RITUAL G4 PRO LEG PADS

- New AIRslide technology
- Super lightweight design & highest quality materials
- New RVH Optimized outer roll
- New HyperComp reinforced thigh rise

LEG PADS

RITUAL GT LEG PAD TECHNOLOGY

GEOMETRIC TORSION TECHNOLOGY

TORSIONAL FLEX POINTS BELOW THE KNEE AND ANKLE ALLOW THE TAPERED BOOT TO TILT FORWARD AND SEAL ALONG THE ICE WITHOUT CAUSING THE THIGH RISE TO LIFT

COMPLETE PAD SEAL ALONG THE ICE FROM BOOT TO THIGH-RISE

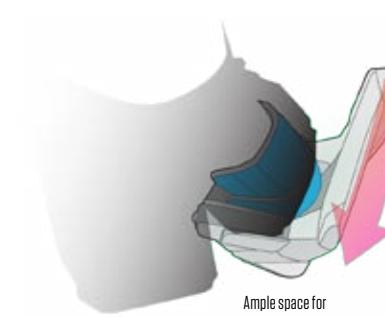

KNEE DRIVE SYSTEM

FUNCTION:

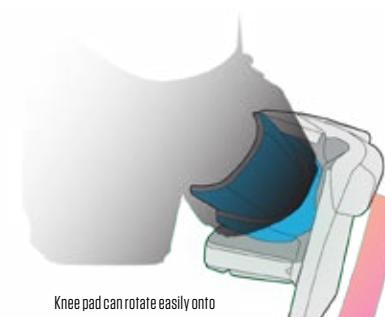

A firm, open and un-restrictive construction of the internal knee area of the leg pad creates a smooth interface between leg pad and knee pad

BENEFIT:

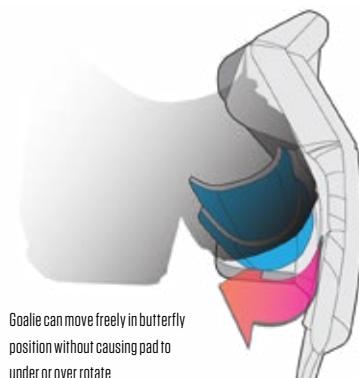

Unrestricted rotation from standing to butterfly transitions - Unprecedented pad stability

Ample space for knee pad to fit inside knee area

Knee pad can rotate easily onto knee landing block as leg pad drops into butterfly position

Goalie can move freely in butterfly position without causing pad to under or over rotate

RIG4

CHEST & ARM

RITUAL G4 CHEST & ARM TECHNOLOGY

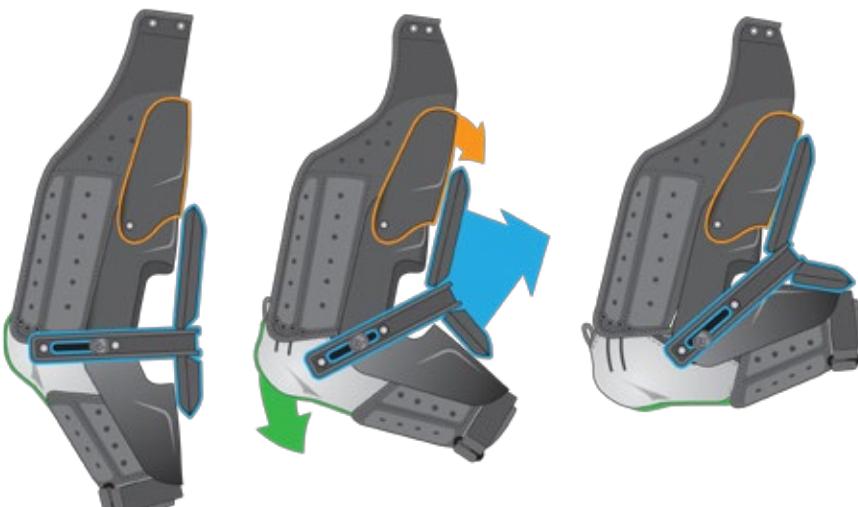

SHOCKSHIELD

FUNCTION:

Disperses the impact of the puck across the plastic cap and the trampoline liner

BENEFIT:

Increases protection and comfort

AXYFLEX

FUNCTION:

Facilitates maximum range of motion while providing superior protection

Acts as a hinge, allowing the elbow, forearm, bicep, and floater to move together

BENEFIT:

Increases protection, mobility, and comfort

RITUAL G4 PRO CHEST & ARM

- New HyperComp bicep and forearm shields
- Best in class arm protection and mobility
- ShockShield & AxyFlex technology
- New lace-in adjustable arm length
- New chest block design for maximized protection
- Squared up shoulder floaters
- Side Velcro attachment
- Removable front/side chest pad extensions
- Adjustable backplate settings
- New shorter fit arms

- Nouveaux protecteurs HyperComp pour biceps et avant-bras
- Meilleure protection et mobilité dans cette classe
- Technologies Shockshield et AxyFlex
- Nouveau: Longueur de bras ajustable avec lacage
- Nouveau design du protecteur de poitrine pour une meilleure protection
- Protecteurs d'épaules de forme carrée pour un excellent contrôle des retours
- Attache latérale en velcro
- Protecteurs latéraux à la hauteur des reins amovibles et ajustables
